Cause of Loss of Life.
A force of 150 men toiled all day long at the scene of the wreck. Before 2 o'clock Sunday morning the track was clear for through trains, but it required many hours to clear the debris. Engineers Parrott and Kane were found beneath their engines, but their bodies were not badly crushed.

Small fragments of bodies were found today, but it is thought that they belong to bodies already found and brought to this city. One little baby was found by the wreckers, but that was all.

The cause of the terrible loss of life in the heavy eastbound train was explained today. It seems that the second coach plowed its way into a tank car, such a manner that the other cars were jammed into it, and pushed on by the weight of the heavy Pullmans, were crushed like eggs.

PRIMATE'S PLEA TO CHRISTIANS

(Continued from Page 1.)

measurable good of man. For that reason we want here, where the heart of your great nation throbs and sends its pulse through the whole world, to keep raised overhead the banner of Him who has taught us these things—our master, Jesus Christ. The principles He set forth are ours because they are His. He taught us that a man's life consisteth not in the abundance of things which he possesseth. He taught us that society exists for the sake of the men and women who constitute society.

The Christian Ideals.
"He taught us that surrender, even of individual rights, for the sake of Christ is nobler than defense of privilege."

"We must be here to work. And men who work can only work for men. And not to work in vain, must comprehend humanity and so work humbly. And raise men's bodies still by raising souls."

"These are ideals, but they are Christian ideals, and therefore they can come true. We mean, please God, that they shall. We, from across the sea, join hands with you in the endeavor to translate them into accomplished facts, not fancy. What we are aiming at and striving after is a plain thing—the bettering of people's lives; to make men purer and men nobler; to uplift the weak and wayward and to trample under the feet what is selfish and impure; to make certain that every one of Christ's children shall learn to know the greatness of his heritage, and shall have an ideal before him, an ennobling ideal of worship and of work. Christ charges us with that which we are trusted to work for Him among those far whom he died. No other period of Christendom can compare with ours in the possibilities which are set within our reach. No other part of Christendom, as I firmly believe, can do for the world what we, on either side of the sea, can do for it. If we only will, God give us grace to answer to that inspiring call."

After the archbishop's blessing the services closed with the recessional "Onward, Christian Soldier." The archbishop celebrated holy communion at St. John's Protestant Episcopal church in the evening. There was a distinguished gathering of Washingtonians present, including Mrs. Roosevelt. The president was represented by General Glespie of the army. The sermon was preached by Bishop Brent of the Philippine Islands, the text being "Liberty."

BARBECUE TOMORROW

(Continued from Page 1.)

Jackson as set forth in the party's platform of the state and nation, and we endorse the national and state tickets.

"We heartily commend the good judgment of the Republican party for their persistence in electing Democrats to the high and important office of district judge."

"We point with pride to the splendid achievements of the Democratic administration in this county during the years 1893-8, and positively and unequivocally state to the voters of this county that had they retained Democrats in office during all these subsequent years the shameful spectacle of a private abstract company diverting the munificent sum of \$10,000 from the people's treasury would not have become a matter of history, nor would the enormous sum of nearly \$5,000 have been foolishly taken from the county revenues for no worthier a purpose than buying cozier tails."

"We condemn the Republican county administration for their marked incompetency in managing the county's affairs. They have increased the salaries of their officers, while lessening their duties by the appointment of numerous deputies, retained in idleness."

"They have persistently refused to sufficiently repair the roads throughout the county in order to keep them reasonably passable during the entire year."

"They have wasted the people's money and persistently maintained a high rate of taxation, notwithstanding a steady increase in the revenues, and are at the present time paying interest on from \$5,000 to \$5,000 borrowed money."

"We are alarmed at the increasing desire and strife to secure nominations within the 'Republican' party everywhere and believe that this great desire is not inspired by the mere love of office, but by the people's special welfare."

"We pledge the Democratic party to honesty in public office, to equal rights and justice to all, and to progress coupled with economy in all their public administrations."

WHIPPED SINGLE-HANDED.

Frank Troy Tells How He Founded Editor Wyncoop.

Frank Troy, proprietor of the Poudre cafe at Bingham Junction, last evening telephoned his side of the reported assaulting of James A. Wyncoop, editor of the County Courant.

"The man came into my place," said Mr. Troy, "in an intoxicated condition. He became obstreperous and I put him out, giving him a good thrashing into the bargain. Notwithstanding he says six men pitched onto him and assaulted him, I was the only person that touched him at all, although there were a dozen men in the restaurant at the time. I weigh but 120 pounds, so the fight was a fair one as far as he was concerned. If he is not satisfied, I'll submit another dose any time he desires to meet me."

The published story that he was set on because of editorials in the Courant is generally ridiculed at Bingham Junction.

TIES UP STREET CARS.

Rain Causes Damage to Electric Power System.

Rain caused a tie-up on the street car lines lasting nearly two hours yesterday afternoon by the burning down of some of the high tension poles a short distance this side of Beck's Hot Springs on the trunk power line to the city. The first shut-down occurred at 2:45 o'clock. Between that hour and 6 o'clock the current was off most of the time, being turned on for a few minutes at a time when the company thought it safe. The electric lighting system was crippled for a while at first, but the current in these wires was turned on in a short time, leaving the street cars to suffer through the loss of power.

The accident occurred through some of the "jacks" on the high tension wires looking through defective insulation, setting fire to the poles, which caused the wires to drop and get mixed up. The power had to be turned off while the damage was being repaired.

The first rain of the fall usually means an accident to the lines and the insulation on the wires is liable to become defective through the long, dry summer. The company had been waiting for yesterday's storm to do some damage so was prepared for it.
